PRESIDENT DIAZ ASSASSINATED

Rumored That Mexican Ruler Has Been Killed.

REPORT IS NOT CONFIRMED

Efforts to Trace It to an Authentic Source Prove Futile—Battle Between the Revolutionary Forces and Government Troops Said to Be in Progress at Cuastro Cienegas.

Denver, Nov. 23.—A rumor that President Diaz of Mexico has been assassinated gained some circulation here, but efforts to trace it to an authentic source proved futile.

BATTLE IS NOW IN PROGRESS

Fighting Said to Have Occurred at Cuastro Cienegas.

El Paso, Tex., Nov. 23.—It is reported that Madero, accompanied by nearly 1,000 mounted men, attacked Cuastro Cienegas and a battle now is in progress. This news comes from Torreón.

REVOLUTIONISTS DEFEATED

Four Hundred Repulsed With Loss of Thirteen.

Mexico City, Nov. 23.—Four hundred revolutionists who took part in the assault on Parral, referred to in Monday's dispatches, were repulsed with a loss of thirteen dead, the inhabitants withstanding the attack for many hours, until troops were able to reach the scene from Chihuahua and Monterrey.

Gomez Palacio was retaken by the federal troops, according to official advices received here. The looters who occupied the town were pursued by mounted troops and eventually dispersed, losing seven dead. The troops lost two.

IS NOT LIKELY TO SUCCEED

Revolt in Mexico May Be Suppressed Soon.

Washington, Nov. 23.—Southern Mexico practically has been cut off from the capital, railroad bridges have been blown up or burned and the revolution has attained great proportions in that section of the republic, especially in Yucatan. This is the burden of unofficial advices received here. Señor de la Barre, the Mexican ambassador, who declared reports of the revolution to be grossly exaggerated, has no advices from his government. The state department likewise is without information aside from that received during the day.

The recipients of the unofficial information declare that Vera Cruz will be captured by the revolutionists within three days and that the revolutionary movement is sweeping northward. A copy of the proclamation issued by General Madero has been received here. So far it has not been formally presented to the state department. It contains an outline of the proposed new government and pledges Mexican protection to American lives and property.

That the revolutionists in Mexico are doomed to defeat is the opinion of Henry Lane Wilson, the American ambassador in the Mexican capital. From that vantage point, with access to the reports received by the Mexican government from its military commanders and civil governors, and with his private advices from American consular offices at points where disturbances have occurred, Mr. Wilson has reached the conclusion, which he has transmitted to the state department, that, owing to the excellent disposition of President Diaz' military forces, the revolutionary movement, which appears to have been sporadic in its nature, is not likely to succeed.

COSTLY FIRE AT PORTAL

Explosion of Gasoline Starts a Destructive Blaze.

Portal, N. D., Nov. 23.—Four business buildings in this city were destroyed by fire which had its origin in an explosion in Daley's confectionery store. A gasoline tank used in connection with the lighting system exploded. The Daley store, Laflamme's restaurant, Anderson's pool hall and Johnson's tailoring establishment were destroyed before the fire was put out. The total loss was about \$10,000.

Ed Valtens was working about the gasoline tank when it exploded, and the blazing oil was hurled into his face, causing serious injuries to his head and shoulders.

Jeweler Routed by Fire.

Lishon, N. D., Nov. 23.—Fire broke out in the jewelry store of E. A. Arhart. It started in the basement and before the alarm was sounded it had gained such headway that the main floor was burning. Prompt response by the fire department saved the building from being totally destroyed, but the jewelry stock was almost a complete loss owing to damage done by water and chemicals. The loss is estimated at from \$5,000 to \$6,000.

PRESIDENT DIAZ.

Ruler of Mexico Said to Have Been Assassinated.

AVERT THREATENED SPLIT

Gompers and His Friends Smooth Over Trouble.

St. Louis, Nov. 23.—A threatened split between the labor unions of the United States and Canada was smoothed over in the American Federation of Labor by the action of President Samuel Gompers and his friends.

The discussion, which at times was heated, grew out of the report of the special committee on labor relations with Canada. This committee recommended the maintenance of the autonomy of international unions in Canada, confers the sole right to the issuance of local union charters upon the Canadian Trades and Labor congress and gives the Canadian central bodies the privilege of affiliating with the American Federation of Labor.

Delegate Andrew Fureseth of the Seamen's union led the opposition to the last clause in the resolutions, which he said would give the opponents of the union men in Canada an opportunity of saying that Canadian workmen were dictated to from Washington.

President Gompers gave up the chair to reply. He said that already the Canadian central bodies were affiliated with the federation and that the defeat of the section referred to would mean their withdrawal. Several of the Canadian delegates made speeches in support of the resolutions, which finally were adopted.

A resolution recommending that local unions throughout the United States affiliate immediately with the state and central bodies was adopted.

DESIRE FREE CITY MARKET

Socialists of La Crosse Would Reduce Cost of Living.

La Crosse, Wis., Nov. 23.—The chief plank in the Socialist city platform will be one relating to "the high cost of living."

Home rule, comprehending a greater degree of democracy, will be another plank.

The Farmers' Equity society's movement for a state packing house is endorsed, and the ideas will be extended so as to include a city slaughter house.

The adoption of the various planks suggested for the platform will be passed upon at a referendum to be initiated by the local Socialist party.

The offer of Mayor Seidel of Milwaukee to deliver an address here has been accepted, and later a similar offer from Victor Berger, congressman-elect from the Fifth district, will be accepted.

The relief from the cost of living will be a general city market in which the food necessities of life will be handled. It is possible that this may be extended to a free market where farmers and others can sell their produce. A general competitive market for grain and livestock, with a local buyer to promote competition, may be added.

Slated for Commerce Court.

Butte, Mont., Nov. 23.—Private advices from Washington state that United States Senator Thomas Carter will be tendered an appointment as a judge of the court of commerce, created by the last congress, and for that purpose has been called to the national capital by President Taft.

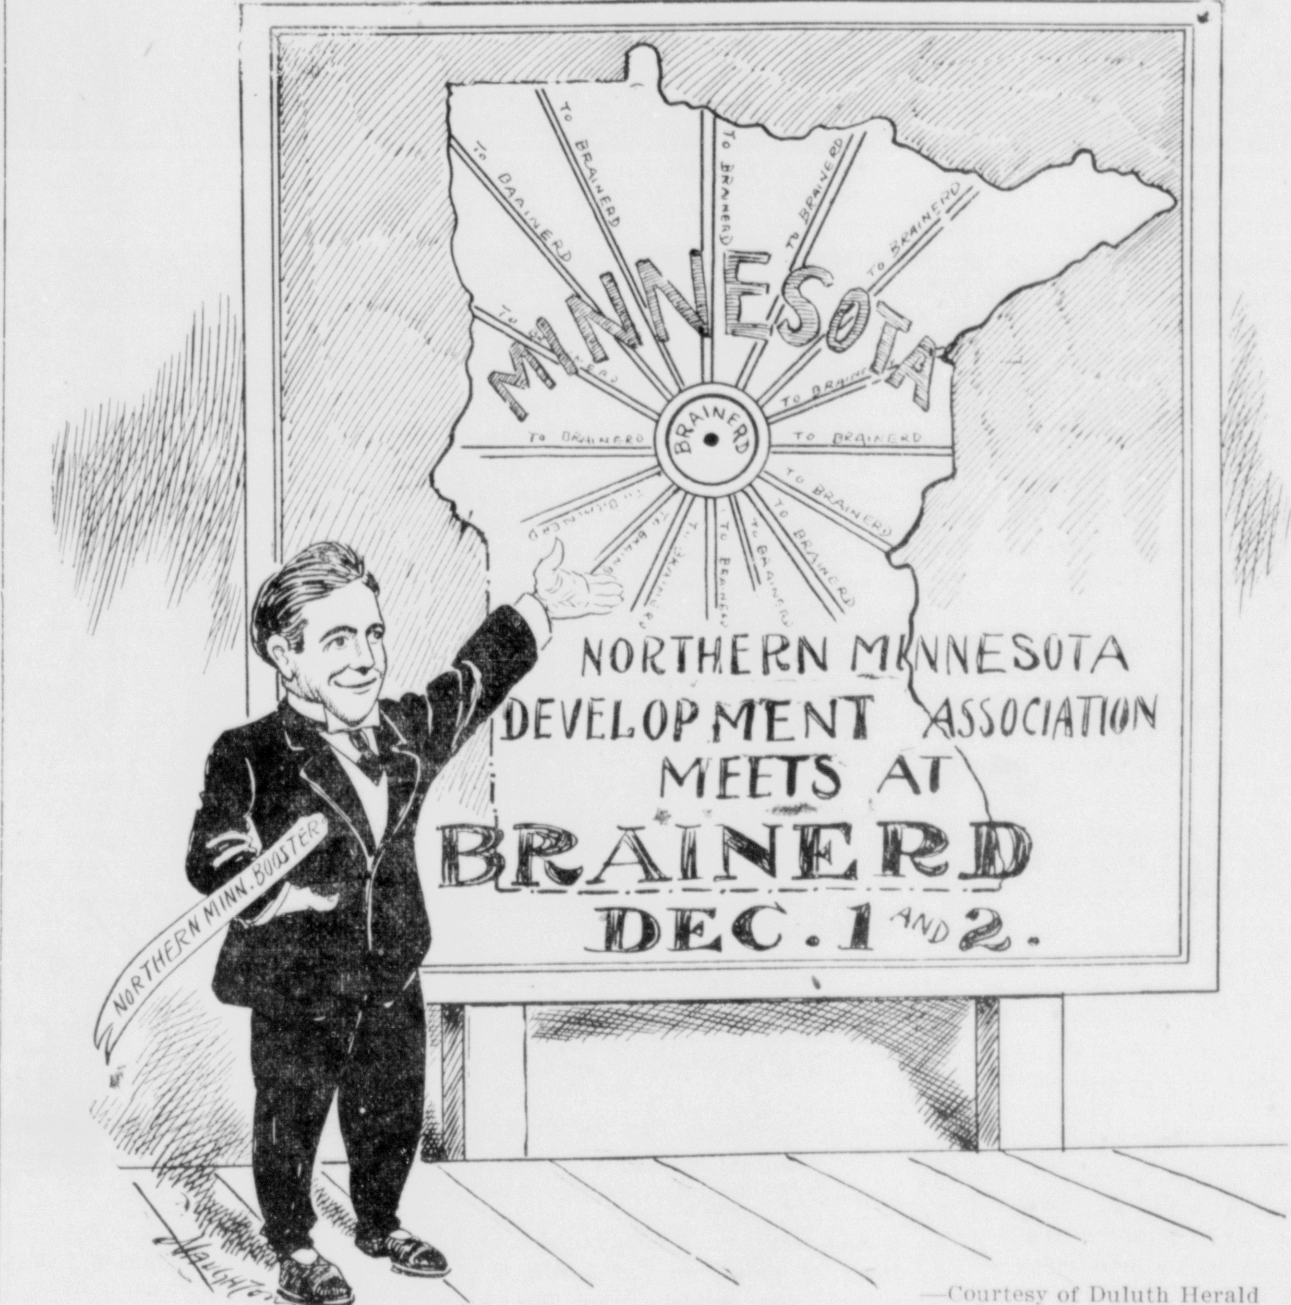

Woman Fatally Shot.

St. Paul, Nov. 23.—Mrs. Mary Alt-schuler, twenty-five years old, was found possibly fatally shot through the head in a room in the Willard hotel. Before she lost consciousness she told Detectives Daly and Sweeney that Ben Foreman, a tailor, with whom she had been in the room two hours, had fired the shot, and he was arrested on a charge of assault with a dangerous weapon. Foreman told the police the shooting was accidental.

Killed by His Own Gun.

Menominee, Mich., Nov. 23.—Rodney Stage, twenty years of age, was shot and killed by the accidental discharge of his own gun at Cedar river.

AGED WOMAN BURNS TO DEATH

Tragedy in Chippewa Falls Caused by Broom Catching Fire.

Chippewa Falls, Wis., Nov. 23.—Mrs. Margaret White, aged eighty-seven, died as the result of burns. She took a broom to brush some sweepings into a heating stove in an up stairs room of the house. The flames set fire to the broom, from which her clothing caught. Her screams attracted Mrs. John White, her daughter-in-law, who rushed up and found the aged woman enveloped in flames.

Seizing a blanket she extinguished the fire, but not until Mrs. White was fatally burned.

Young Is a Candidate.

Des Moines, Nov. 23.—Saying that he was under no obligations to Governor Carroll not to be a candidate in 1913 for the position he now occupies, Senator Lafayette Young, Iowa's new senator, formally announced that he would be a candidate before the coming legislature for the office of United States senator.

PRESIDENT TAFT IN GRAVE PERIL AT SEA

Cruiser Narrowly Escapes Collision With Steamer.

Richmond, Va., Nov. 23.—President Taft has arrived here from Hampton Roads.

The trip from Panama was filled with incident. On Friday night last, about 140 miles south of Guantanamo, Cuba, the Tennessee narrowly averted a collision with a German training ship, supposed to be the Freya. A heavy squall had shut in around the presidential squadron, the weather being so thick the steersman could hardly see a ship's length ahead. The storm was brief and, as it cleared, the big German ship was cutting directly across the Tennessee's steel bows, not a quarter of a mile away. The helm of the Tennessee was put hard over.

There was no exchange of signals. On Saturday the president spent three hours at Guantanamo looking over the American naval base and the rifle ranges there. It was the first time an American president had set foot on the island of Cuba.

The president spent three of the five days of the homeward voyage at work on his message to congress and dictated the first draft of the major portion of it.

Mr. Taft is anxious to get back to Washington and is ready to plunge into the winter's work.

The Mexican situation is still being handled wholly by the state department at Washington. Mr. Taft has had but meager details.

McCurry's Machine Wrecked.

Mobile, Ala., Nov. 23.—While descending from a 500-foot altitude Aviator J. A. D. McCurry, one of the men flying in the Register aviation meet, dipped too near the earth, one of the wind shields striking the ground when going at a high rate of speed, and turning the machine over. The crowd rushed to the end of the field in which the accident happened, but found McCurry walking about and smiling and uninjured. The aeroplane was badly damaged.

TELLS OF OPINION IN THE DOMINION

Canadian Discusses Relations With United States.

LOWERING OF TARIFF WALL

Held by Dr. J. W. Edwards to Be Essential to Closer Trade Relations With Northern Neighbor—Declares Canada Will Not Accept Treaty Leading to Political Union.

Boston, Nov. 23.—The prevailing opinion in Canada, according to Dr. J. W. Edwards, M. P. of Ottawa, who addressed the Canadian club at a "peace" banquet at the Parker House, is that any step toward negotiating closer trade relations between that country and the United States should be preceded by a lowering of the tariff wall on this side to the level of that on the Canadian side of the line. Mr. Edwards said that no tariff treaty which promised to lead to political union would be accepted by Canada. He spoke in part as follows:

"The object of this celebration, the commemoration of 100 years of peace between Canada and the United States, is worthy of the highest commendation. I am sure it is the wish of practically all the people, as it is the sincere desire and object of this club that friendship shall be cultivated and peace between the two countries so strongly cemented that it can never by any possibility be broken."

"Canada's trade is principally with this country and The Netherlands, while the United States buys from Canada 57 per cent more than ten years ago The Netherlands buys 122 per cent more. The United Kingdom takes over half of Canada's exports, while the United States takes barely 37 per cent. On the other hand 60 per cent of Canada's imports come from this country and less than 25 per cent from the United Kingdom."

"The fact that 8,000,000 Canadians buy from this country more than twice as much as the 95,000,000 of Americans buy from Canada has led my countrymen to discard the idea once so prevalent that the United States is Canada's natural market and I believe I am correctly representing Canadian sentiment when I say that the prevailing opinion in my country is that any steps toward the negotiating of closer trade relations should be preceded by a lowering of the tariff wall on this side to the level of that on the Canadian side of the line."

FIXES DEITZ BAIL AT \$10,000

Judge Refuses to Consider Small Amount for Hotel Offense.

Chippewa Falls, Wis., Nov. 23.—Attorney Leo Reitman of Milwaukee appeared in the circuit court on a motion to admit John Deitz to bail on the shooting of Bert Horel, for which he is now in jail. Attorney Reitman argued that \$1,000 bail ought to be sufficient. Judge Wickham fixed the bail at \$10,000.

A Lean Horse For a Long Race.

Fat people, as a rule, are less liable to resist the attacks of disease than persons who are comparatively thin.

MANY MINERS ARE ENTOMBED

Some Brattice Themselves in Chambers Where Air Is Good.

Canyon City, Colo., Nov. 23.—Miners caught in the workings of the Fremont mine of the Colorado Fuel and Iron company, which took fire in an underground mine stable are being hoisted to the surface.

More than 160 have reached the surface, and mine officials say all but two of them employed underground have been communicated with and are known to be safe.

The fire has been driven to the main haulage shaft by ventilating air currents, and the main shaft is now burning fiercely. Many of the miners still underground have bratticed themselves in chambers where the air is good, and will await rescue parties before attempting to reach the air shaft. The main passages are full of smoke, and they were ordered to wait until the fan at the air shaft could clear the passages before attempting to escape.

ARGUES MINNESOTA RATE CASES IN COURT

Former Attorney General Young Represents State.

St. Paul, Nov. 23.—"I cannot believe that these cases are seriously brought here on the issues of interference and confiscation; there is some other purpose; some other motive back of it. I believe the cases are before this court and will be taken before the United States supreme court to establish that rates made by a state so affect interstate rates that the ratemaking power must be taken from the states; the railroads are not here to sustain and support the majesty of the federal law, but to uphold an enormous valuation of railroad properties which will prevent states from reducing rates; they are here to establish a rule for the division of cost between interstate and intrastate business which will so burden the latter that any rates which may be fixed by the state will be confiscatory."

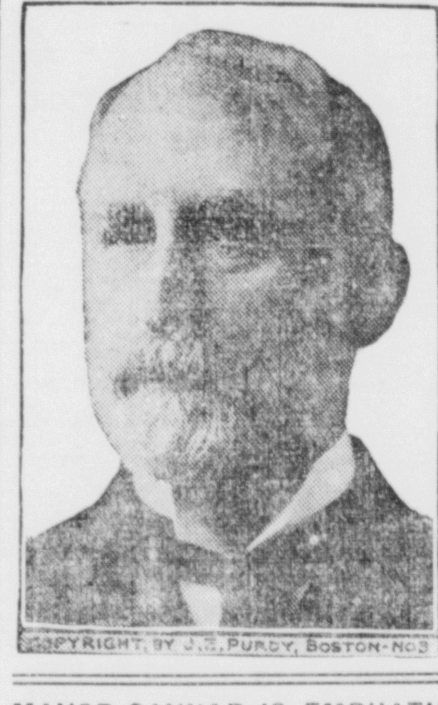

With this insinuation that the railroads are vitally interested in the outcome of the Minnesota rate cases, more because the contested schedule of rates will affect their revenue than because they fear the conflict of state with federal law, former Attorney General Young, chief counsel for the state, opened his affirmative argument in the federal circuit court before Judge Sanborn.

"It does not seem," he said, "that the Great Northern can predicate confiscation on a revenue reduction of \$200,000, compared with gross earnings of \$21,000,000, or on a situation where that road paid all expenses of maintenance, a 7 per cent net return on the investment and turned over \$2,448,000 to the permanent improvement fund."

MET HIS DEATH ON THE GALLOWS

MAYOR GAYNOR.

Makes Plain His Attitude in Regard to Gambling.

MAYOR GAYNOR IS EMPHATIC

Makes It Plainly Known That Gambling Houses Must Close.

New York, Nov. 23.—Mayor Gaynor made plain his attitude toward gambling houses in New York. He says they must go. Writing to a Brooklyn lawyer who complained that for two weeks the police had held possession of a client's saloon, on the charge that it was a gambling house, the mayor said:

"A man's house is his castle, as you correctly say, but I have not yet heard it said that a man's gambling house is his castle. When the police find a public nuisance they should take possession of it and hold possession of it until the nuisance is fully abated, and that is what they propose to do with gambling places and the like. It is of very little use to walk into them and arrest the proprietor and then walk out again. We do not intend to have the law enforced in that way. On the contrary, the ample powers given by law to the police to suppress nuisances is going to be exercised."

GEORGE WEEMS IS SET FREE

Served Long Prison Term for Crime He Never Committed.

Des Moines, Nov. 23.—George Weems, aged thirty-six years, originally sentenced to hang, stepped from the Iowa state prison at Fort Madison a free man after sixteen years of servitude. He was convicted of the murder of L. B. Ridpath, a conductor on the Chicago Great Western railroad who was on his way to his train when shot in the neck and killed.

The liberation of Weems involves a story of mystery and romance. He was saved from the gallows by the psychological effect of a dream upon General Drake, then governor of Iowa. He is restored to society because a woman of the underworld consented to tell Governor A. B. Cummins confidentially that Weems was with her when the fatal shot was fired.

The sixteen years' long servitude in the penitentiary came because the man whose hands and clothes were stained with the life blood of Ridpath turned state's evidence, implicating Weems and a man named Hammill, gaining his own freedom and sending the other two men to prison. George Weems persistently maintained his innocence. He had been with John Crot and Hammill earlier in the evening, but said he left them to visit a woman known as Kitty Leary. It was while in this woman's company, he asserts, that he heard a shot fired in the street, rushed out and saw the conductor staggering in the street. He helped him to the curb, but, frightened by the clang of the police bell, fled before the officers arrived. When arrested next day it was discovered that the woman by whom he could prove an alibi had left the city and her whereabouts could not be learned. George Weems was convicted and sentenced to be hanged.

Boy Killed by Train.

St. Paul, Nov. 23.—Thomas O'Toole, nineteen years old, was instantly killed under the Lafayette avenue bridge, when he was struck by a transfer train. He is the son of John O'Toole. The boy was a coal wagon driver, and it is thought that he was returning home from work at the time of his death.

Woman Guilty of Murder.

Wenatchee, Wash., Nov. 23.—Mrs. Bella A. Totten was pronounced guilty of murder in the first degree by a jury here. In a dispute over a right of way across the Totten ranch last August she shot and killed James Sutton, a neighbor. Mrs. Totten said she shot Sutton after he had tried to strike her aged mother.

Minnesota Woman Shot.

Duluth, Nov. 23.—Barbara Dumin of Hibbing, while visiting at a neighbor's, was shot by the man of the house because she angered him. Difficulty has been encountered in getting the name of the assailant. The bullet took effect in the abdomen and the woman is not expected to live.

American Dentist Will Be Executed in England.

FOR MURDER OF HIS WIFE

Within the Gloomy Walls of Pentonville Prison the Man Who Is Alleged to Have Killed Belle Elmore Will Pay the Extreme Penalty of the Law. Ethel Leneve Is Free.

London, Nov. 23, 1910.—Dr. Hawley Harvey Crippen was hanged this morning in the yard of the Pentonville jail for the murder of his wife Cora Crippen, known in music halls as Belle Elmore. Crippen met his death with the same courage that marked his conduct since he was apprehended at Father Point, Que. Not once did he falter on the march to the gallows nor did he break down when the noose was being drawn around his neck. The trap was sprung exactly at 9 o'clock. A seven foot drop was sufficient to break the prisoner's neck and death was reported by the physicians to have been instantaneous.

London, Nov. 23.—All preparations have been made for the hanging of Dr. Hawley H. Crippen within the gloomy walls of Pentonville prison, which stands in one of the most dismal sections of London.

Public Executioner Ellis of Rochdale, who hanged a wife murderer at Liverpool Tuesday morning, arrived in London on the evening train. The scaffold has been erected. A few tenements overlook the prison yard and to bar the tenants from a glimpse of the tragedy a big canvas screen has been put up before the gallows.

Only a small group of official witnesses will attend and every effort has been made to prevent morbid crowds from gathering in the neighborhood. Even the customary official announcement of the hanging is not likely to be posted until evening. The body probably will be buried in quicklime in the prison yard. This is the custom at Pentonville, although not in all English prisons.

Father Carey, who has visited Crippen frequently, entered the prison to spend the night with the condemned man. He will walk with Crippen to the scaffold.

An evening paper caused a sensation by flooding the city with placards that Crippen had made a written confession. Every one in a position to know denied this. Ethel Leneve said: "I was the last person to see Dr. Crippen. So far as my knowledge extends he has not made such a statement."

It also was reported that Crippen wrote a statement for a Sunday paper, which bought a previous story of his. The paper, however, denies that it has his confession.

Ethel Leneve has booked passage on the steamship Majestic, which sails from Southampton for New York today.

Story of the Crime.

The crime for which Dr. H. H. Crippen was tried and condemned to death was that of murdering his wife, Belle Elmore, a music hall singer, whose mutilated and battered body was found buried in the cellar of her home in London. The Elmore woman mysteriously disappeared early in February last. In April, the English authorities, hearing suspicious stories of her sudden dropping from sight, commenced an investigation. Dr. Crippen, when first interrogated regarding his wife's whereabouts, gave a plausible story, stating that she had gone to America. Discrepancies, however, were found in Crippen's tale, and Scotland Yard detectives when prepared to take the American dentist into custody, discovered that he, with Ethel Clara Leneve, his typist, had fled to the country. They were traced to the continent, and some time later were located, by means of wireless telegraphy, aboard a ship bound for Canada. On the arrival of the vessel at Quebec, in August, Crippen and Miss Leneve, who was disguised as a boy, were taken into custody and returned to London, where both were recently placed on trial. Crippen being charged with murder, while his partner in flight was accused as an accessory. Crippen was found guilty and sentenced to die on the gallows. Miss Leneve, after a brief trial, was acquitted.

A sad feature in connection with the execution of Crippen was the death, the other day in Los Angeles, of his aged father, who died of a broken heart.

Crippen, previous to going to England, practiced dentistry in several cities in the United States.

An Artist's Criticism.

Probably no two artists ever criti-
cized each other more severely than
did Fuseli and Northcote, yet they re-
mained fast friends. At one time Fu-
seli was looking at Northcote's paint-
ing of the angel meeting Balaam and
his ass. "How do you like it?" asked
Northcote after a long silence. "North-
cote," replied Fuseli promptly, "you're
an angel at an ass, but an ass at an
angel."**MUSIC AND DRAMA****"My Cinderella Girl"**

"I'd Rather be a Friend of Yours
Than Someone Else's Dear," sung by

was well presented and staged and
the innovation of a comedy inter-

STATE AID FOR OUR SCHOOLS

State Apportionment for all School Districts of County is \$10,722.00

CITY SCHOOLS GET HALF

The State Aid Extended High School Semi-Graded and Rural Schools

"The state apportionment for all school district was \$10,722.00," said County Auditor Smart this morning. "Of this amount the city schools of Brainerd get a little over half."

"The state aid to our high school is \$1750."

"The state aid to the semi-graded schools is \$774, of which school districts No's. 7, Deerwood; 41, Pequot; and 66, Jenkins, each draw \$258."

"The state aid to first class rural schools is \$736, of which school districts, No's. 1, 3, 8, 9, 11, 31, 34 and 56 each draw \$92."

"The state aid to second class rural schools is \$186 of which school districts No's. 12, 28 and 42 each draw \$62."

ROOMS IN DEMAND

Request is Made that Parties Having Desirable Rooms for Rent List Them at Once

As December 1st and 2d draws near, which dates mark the opening of the first annual meeting of the Northern Minnesota Development association at Brainerd, Minnesota, it becomes more and more evident that a crowd of unusual proportions will have to be taken care of. The hotel accommodations are insufficient as far as rooms are concerned, and the committee requests that all citizens within a reasonable distance of the business district, who can accommodate some of our visitors with rooms, be kind enough to inform the following at their earliest convenience:

Brainerd Dispatch office, Brainerd Tribune office, Carl Zapffe, 213-214 Citizens' State Bank Bldg., or any members of the Brainerd Commercial club.

Brainerd's hospitality is well known throughout the state and our visitors will come expectant of convenient and agreeable accommodations. It is of great importance that the citizens do not overlook this matter and endeavor to assist the committee.

WHAT DULUTH THINKS

The Program for the Brainerd Meeting Offers Two Days of Solid, Earnest Discussion

The program is completed for the Brainerd meeting of the Northern Minnesota Development association, and it is a dandy, if the word may be permitted to go in where it belongs, says the Duluth Herald.

It offers a full two days of solid, earnest, interesting and helpful discussion, and it touches every high peak of the vast area of Northern Minnesota's needs. Furthermore, each subject is in good hands, and there will be those present who will take it up when they drop it, and keep it going until the last shred of meat has been twisted out of it. Re-apportionment, conservation, good roads, the commission plan of handling and settlement of state lands, forest fire protection, the consolidated rural school, solution of all social and education problems of country life, and the work of railroads in state development—all these subjects will be ably handled.

Better still, a program for legislative action will be mapped out, so that when the session is over Northern Minnesota will know just what ought to be done and just how to go about it.

Everybody should be there.

PRETTY WELL OBEYED NOW

T. E. Brents, Special Officer, Says he Has Five Officers Now and Will Employ More

IF NECESSARY TO ENFORCE LAW

In Accordance With the Treaty of 1855, and Adds that he Will Keep Lid on in Indian Country

T. E. Brents, of Ada, Okla., special official of the United States Indian service, who is now in charge of the enforcement of the anti-liquor order in that portion of Northern Minnesota ceded by the Indian treaty of 1855, called on J. M. Dickey, first assistant federal district attorney at the federal building at St. Paul Thursday morning and in an interview said:

"I came to Minneapolis Saturday night to rest," said Mr. Brents, "and I expect to leave tonight for the Indian country. Five of my deputies are patrolling that country now. If these are not sufficient I shall hire as many as are needed. We have instructions to carry out the anti-liquor provision to the letter and we are going to do so."

"The order is being pretty well obeyed now, as far as I can learn, but we must see that the obedience is continued."

"Is the government going to enforce the anti-liquor clauses in any of the other treaties by which portions of the state were ceded by the Indians?" Mr. Brents was asked.

"I can't say," he replied. "I do not know whether the closed territory will be extended or not. Thus far, I know of no change being made in the order."

RESIDENCES DARK FOUR NIGHTS

The Turbine at the Shops is Being Repaired by Westinghouse Experts of Pittsburgh

REDUCES SUPPLY OF CURRENT

The First Repairs Several Weeks Ago Were Only Temporary—These Will be Permanent

The turbine at the shops which was temporarily repaired several weeks ago, is to be shut down today to admit of repairs of a lasting nature.

Four electrical experts have arrived from the Westinghouse Machine Co., of Pittsburgh and one from the New York branch who will attend to the repair work. These are men from the company which installed the machines in the first place.

The whole turbine is to be re-bladed. These blades are about the size of a large steel pen and millions of them are attached to the shaft. In the first accident to the shaft at least eight rows of these blades were swept off.

The repairs are expected to be completed by about Sunday morning and not later than Sunday evening. The shops must have all this work completed by Monday morning.

In the meantime the light supply of the city will be curtailed. The whole residence portion of the city may be dark. Those who are furnished with light should use the same very sparingly, or everything, business district too, may go dark if the present dynamos cannot carry the load.

The business district and the churches will get light, but the residence section will probably be dark until Sunday evening.

RECEIVES PROMOTION

Howard M. Smith, Chief Clerk of Shops to be Division Storekeeper at Staples

Howard M. Smith, for many years the chief clerk of the Northern Pacific railway shops, has been promoted to the position of division storekeeper at Staples. Mr. Smith left for Staples this noon to further familiarize himself with his new duties.

The appointment takes effect the first of next month, when the family will remove to Staples and make their home there. Mr. Smith is well liked and his well earned promotion is a source of gratification to his many friends, who, however, are sorry to see him and his estimable family leave Brainerd.

INDIAN LID ORDER WILL CAUSE FIGHT

The Outlook is for a Long Legal Battle Over Enforcement of Terms of Indian Treaty

INVASION OF STATE'S RIGHTS

Question is Raised by F. W. Zollman, Counsel for Brewers' Association Who Has Case

The Pioneer Press contains the following statement from the attorney of the brewers:

Although a meeting of many of the principal brewers and wholesale liquor dealers of the state, held in St. Paul a few days ago, resulted in a formal announcement that the liquor manufacturers and dealers would obey to the letter the order of the Bureau of Indian Affairs, shutting all liquor out of a large portion of Northern Minnesota, there appears to be no doubt that the whole controversy will reach the courts in some shape. Just what form the litigation will take is not yet known. A statement given out yesterday by F. W. Zollman, attorney for the Minnesota Brewers' association, points plainly to the conclusion that there will be a legal battle. Mr. Zollman said:

"Very few people realize the force of the Indian lid order. Taking the treaty proviso and the Indian statute together as construed by the commissioner of Indian affairs and the secretary of the interior, it means that no citizen within the affected territory can carry into it, or have shipped or carried to him in any manner, either for personal, medicinal or sacramental use, any spirits, wines or other liquors. The shipper, the carrier and the receiver of such liquors are alike guilty, and the punishment is a term of not exceeding two years in the penitentiary and a fine not exceeding \$300. The order of W. E. Johnson of October 22, 1910 directed particularly to the railroad and express companies, promises a vigorous prosecution, without discrimination as to persons or territory throughout the entire country covered by the treaty with the Chippewa Indians."

"This treaty was made February 22, 1855. It takes in about one-sixth of the entire state, and covers all of Cass, Hubbard, Becker and Mahanomen counties, almost all of Itasca, Aitkin, Crow Wing, Wadena, and Norman counties, considerable portions of Clay, Otter Tail, Beltrami and Koochiching counties, and portions of St. Louis and Carlton counties. The territory has a population of about 275,000 whites, as against 6,000 to 7,000 Indians, the majority of whom are citizens of the United States and citizens of the State of Minnesota, with the right of franchise, and eligible to any office within the gift of the state or nation."

"Minnesota was admitted into the union in 1858 on an equal footing with the original states, and from then until now, a period of fifty-two years, has continuously exercised the police powers of a sovereign state in and throughout the entire territory in question, actual Indian reservations, of course, excepted. During all of this time the country has grown to its present proportion and a license policy has prevailed. Three breweries are operated within the territory—two of them at Brainerd and Perham, continuously for more than thirty years."

"These breweries have complied with all the requirements of the federal law as to location, manufacture and sale of their product. Other dealers, both wholesale and retail, have taken out and each year paid (Continued on page four)

W. B. Nuform Corsets

To be so comfortable you can scarcely realize you have a corset on—that is what it means to wear a W. B. Nuform. Yet your lines will be symmetrical, graceful and fashionable.

The Nuform gives the wearer a gracefully rounded bust, seductively incurred waist and natural lines of easy grace.

Whether you are short or tall, slender or more robust, we can fit you perfectly in one of the numerous Nuform models. They are designed in styles to suit all figures.

Your gowns will look wonderfully chic draped over a Nuform because the lines are Fashion's own selection.

BUY YOUR COAL EARLY

Railway Engineers May Strike Early Next Month Which Would Curtail Coal Supply

C. H. Paine, when interviewed regarding current events said: "The most serious thing for us to face now is not the scarcity of whisky but something of far more importance, namely, to get enough coal to tide us over the winter. A strike, wide and far reaching in its effects, may be inaugurated on or about the twelfth of December affecting every western railroad by the calling out and tying up of the locomotive engineers."

A locomotive engineer's strike is a different proposition than a switchman's strike. The only safe thing to do now is to buy all the coal you can get before the trouble, if any, starts."

She Wasn't Fretting.

A fond mamma had found occasion during the morning to reprimand her small daughter with more than usual severity. It seemed to hurt the child's feelings considerably. In the afternoon the little girl sat on the sofa staring vacantly out of the window, apparently wrapped in meditation. The mother, who was sitting beside her, noticed the little girl's placid expression and asked, "What are you thinking about, dear?" "I 'uz jus' finkin," said the little girl, "if I want six or eight bridesmaids."—Everybody's.

INDIAN LID ORDER WILL CAUSE FIGHT

(Continued from page three)

their so-called "government licenses"—in other words, the federal government has acquiesced in all these things and from the making of the treaty until the present time has never taken a single step to enforce the treaty provisions. Naturally, on the strength of his acquiescence, extensive investments have been made, which at least constitute equity considerations of great weight. It certainly seems unreasonable to disregard these things, especially in view of the purpose for which the Indian Intercourse act was included in the treaty. Primarily it was intended for the protection of the whites during the sparsely settled period of the country. This necessity has ceased to exist.

"As already said, most of the Indians living in this territory are citizens and eligible to any office within the gift of the state or nation. The supreme court of the United States in the case of In re Heff, U. S. 197, 488, held that the Indian citizen is no longer a ward of the government and is entitled to equal rights and privileges with the white citizen. That decision is the law of the land as much as the treaty or the statute and should at least receive some consideration. It might, therefore, be urged with some propriety that an executive officer should not construe the law so as to deprive the Indian citizen of those rights to which the supreme court has declared him to be entitled.

"I am not now urging for an open door for the Indian. I am simply calling attention to the federal statutes and federal decisions, because the orders in question are issued by the federal authority. The statutes of the state of Minnesota are fully as drastic on the subject in question as the federal statutes. It is an open question to whether the order is not an invasion of state's rights.

"The entire question, in its various phases, undoubtedly will have to be threshed out in the courts. Just in what kind of suits and between what parties will develop later."

Agreed With Both.
Horace Greeley was the author of a style in editorial writing which had been often imitated, but probably never equaled. During his editorship two newspapers, neither of which was friendly to Greeley, became engaged in a violent altercation. The argument grew warmer until each paper openly called the other a liar. It was the opportunity Greeley had been waiting for. He announced in his paper that "he had the honor to agree with both of his distinguished contemporaries."

TELLS HOW TO CURE A COLD

Surely Breaks the Most Severe Cold and Ends Grippe Misery in Just a Few Hours

The most severe cold will be broken, and all grippe misery ended after taking a dose of Pape's Cold Compound every two hours until three consecutive doses are taken.

You will distinctly feel all the disagreeable symptoms leaving after the very first dose.

The most miserable neuralgia pains, headache, dullness, head and nose stuffed up, feverishness, sneezing, running of the nose, sore throat, mucous catarrhal discharges, soreness, stiffness, rheumatism pains and other distress vanishes.

Pape's Cold Compound is the result of three years' research at a cost of more than fifty thousand dollars and contains no quinine, which we have conclusively demonstrated is not effective in the treatment of colds or grippe.

Take this harmless Compound as directed, with the knowledge that there is not other medicine made anywhere else in the world, which will cure your cold or end grippe misery as promptly and without any other assistance or bad after-effects as a 25 cent package of Pape's Cold Compound, which any druggist in the world can supply.

CHAMPIONSHIP GAME

Brainerd Independents Play Bemidji Tigers Here on Thanksgiving Day, Nov. 24

With but two days left before the game which is to decide the championship of Northern Minnesota, the Brainerd team is getting down to hard practice realizing that they will have a hard game with the fast and heavy squad from Bemidji.

Although outweighed by Bemidji the Brainerd lads are going into the game with a grim determination to win. The team representing Brainerd needs no recommendation to our readers. From tackles to tackles they have five men averaging 185 pounds and every one a veteran of either high school or city teams.

The ends are rather light, though speedy and sure tacklers. Behind the line we have no hesitation in saying that the best backfields for her class in the state. Bert Kylo, the quarterback, is well known to the rooters as a former high school star and later as star on the A. A. A. team of this city. Happy Alderman, left half; Moxey Mahlum, full, and Harry Carlson right tackle, are three stars of the famous Brainerd high school team of 1908, which won a championship for Brainerd. All in all the team is representative of the best football talent in Brainerd and is deserving of the support of every lover of the game.

The game is being advertised at the Grand and the slide is causing great enthusiasm whenever shown. The Brainerd City band will be on deck to play, weather permitting, the boys having kindly volunteered their services, which are certainly appreciated by the entire team.

Turn out, snow or sunshine, Thanksgiving Day, and remember, "All Eyes on Brainerd."

Experienced.

"And do you doubt my love?" he asked passionately.

"No, Samuel," she answered, with admirable tact, "but when you say that the day you call me yours will usher in an era of lifelong devotion and tender solicitude you—pardon me, dear—you put it on a trifle too thick. You seem to forget, Samuel, that I am a widow."—London Telegraph.

HIGH SCHOOL NOTES

The Advantage of a Course of Instruction in Domestic Science

It is an unquestioned fact that girls should go to school until they are eighteen years of age. Before that age they are too young to go out in the world and fight independently the battle of life.

While they are spending twelve years of their lives, nine months of each year and six hours a day in the school room, why not glean knowledge which can be put to a useful end?

A more practical training for our children is one of the issues of the day both with those who are firm believers in a higher education and those who are not.

The problem of parent's delinquency in sending their children to school would be solved were this question satisfactorily settled. Is not the excuse most often advanced for not sending their children to school this. What good does it do them? What child is it that causes the truant office the most concern? It is the one whose parents take no interest in school work.

Use the money we pay the truant officers to help support a more practical course of instruction for instance, domestic science in the high school.

The value of such a course needs no advocacy. Everyone knows that a large percent of the divorces and cases of dyspepsia could be prevented if more girls knew the art of home making and cooking. Even if they had time there is an advantage to girls in learning to cook at school over that at home. For how many mothers can teach their daughters the science of cooking?

Brainerd, be up-to-date. Other schools smaller and younger than that of Brainerd gives its girls domestic science. Why not you?

Florence Whitford and Hilder Anderson play for us when we march out.

The football game which was to have been played at Little Falls Saturday, Nov. 19th, has been cancelled so our team has played its last game.

A certain senior boy said he never was in a chicken coop. We believe him.

The chances for a good football team next year are the best ever. The entire squad with the exception of two members will in all probability return to school next year.

The boys debating club has received a challenge from the Independent debating club, an organization of certain boys of last year's class. No action has been taken on the matter.

The St. Cloud high school has a gymnasium which was built last summer. We do not intend to let them outclass us in that respect.

Miss Esther Belmont visited the school last Wednesday.

The seniors are advised not to use such large scientific words especially when they do not know their meaning.

Teacher (in German) What season is it? Pupil (thoughtfully) Eighteen hundred ten.

Mr. Cobb came before the high school pupils on Friday afternoon offering a plan of a high school literary society which is to meet as long as interest is kept up. He, of course, does not think it advisable unless pupils will take an interest and make it lively. Visitors will be welcome and may come up and hear a good, interesting program such as debating, extemporaneous speeches and music.

The whole school with the exception of three or four are in favor of such a society. John Mahlum was appointed temporary chairman and Mae Staples secretary until such a society be formed.

Almost five miles of the Pacific entrance to the Panama canal have been practically completed.

BURDENS LIFTED

From Brainerd Backs—Relief Proved by Lapse of Time

Backache is a heavy burden; Nervousness wears one out; Rheumatic pain; urinary ills; All are kidney burdens—Daily effects of kidney weakness. No use to cure the symptoms, Relief is but temporary if the cause remains.

Cure the kidneys and you cure the cause.

Relief comes quickly—comes to stay.

Doan's Kidney Pills cure kidney ills:

Prove it by your neighbor's case. Here's Brainerd testimony. The story of a permanent cure.

Mrs. John L. Nelson, 309 Quince St., Brainerd, Minn., says: "About two years ago we procured Doan's Kidney Pills from H. P. Dunn's drug store and found them so effective that we publicly endorsed them. They brought relief from pains in the back and head and other distressing symptoms of kidney complaint. The lapse of time only served to increase our high opinion of Doan's Kidney Pills."

For sale by all dealers. Price 50 cents. Foster-Milburn Co., Buffalo, New York, sole agents for the United States.

Remember the name—Doan's—and take no other.

Here is Your Chance

If you want to get a stove at rock-bottom prices.

During the time that we have been in the storage business over 150 stoves have accumulated in our store house. We have been instructed by the various owners to sell these for the storage due on them. They must positively go before we move into our elegant new quarters in the "Iron Exchange" building.

The prices range from

FLAG PRESENTATION

Rathbone Sisters Present Knights of Pythias Lodge With a Hand-Flag to Replace one Lost

At the recent meeting of the Rathbone Sisters of White Cross Temple, No. 6, about forty members of White Cross Lodge, No. 39 of the Knights of Pythias were present to enjoy the hospitality of the ladies. The grand chief of the Pythian Sisters, Mrs. M. B. Greeley, of Pine City, was present and was the guest of honor. She delivered an address which was listened to with interest by the many present.

Another feature of the evening was the presentation by the ladies of a handsome silk flag to the Knights to replace the one lost in the disastrous fire of a year ago. Mrs. F. D. Stillings made the presentation speech and the flag was received by J. C. Congdon, who made appropriate remarks upon accepting the gift. Refreshments were served during the course of a most enjoyable evening.

The Children's Hour

Isn't there some child in whom you are interested who would enjoy the children's concert at the library Saturday afternoon and yet who could not afford it? Make him a Thanksgiving present of a ticket, on sale at Dunn's drug store at 10c.

THIRTY YEARS OF SUCCESS.

The Rexall Store Offers a Remedy For Catarrh—The Medicine Costs Nothing if It Fails.

When a medicine effects a successful treatment in a very large majority of cases, and when we offer that medicine on our own personal guarantee that it will cost the user nothing if it does not completely relieve catarrh, it is only reasonable that people should believe us, or at least put our claim to a practical test when we take all the risk. These are facts which we want the people to substantiate. We want them to try Rexall Muc-Tone, a medicine prepared from a prescription of a physician with whom catarrh was a specialty, and who has a record of thirty years of enviable success to his credit.

We receive more good reports about Rexall Muc-Tone than we do of all other catarrh remedies sold in our store, and if more people only knew what a thoroughly dependable remedy Rexall Muc-Tone is, it would be the only catarrh remedy we would have any demand for.

Rexall Muc-Tone is quickly absorbed and by its therapeutic effect tends to disinfect and cleanse the entire mucous membrane tract, to destroy and remove the parasites which injure the membrane tissues, to soothe the irritation and heal the soreness, stop the mucous discharge, build up strong, healthy tissue and relieve the blood and system of diseased matter. Its influence is toward stimulating and improving nutrition until the whole body vibrates with healthy activity. In a comparatively short time it brings about a noticeable gain in weight, strength, good color and feeling of buoyancy.

We urge you to try Rexall Muc-Tone, beginning a treatment today. At any time you are not satisfied, simply come and tell us, and we will quickly return your money without question or quibble. We have Rexall Muc-Tone in two sizes, 50 cents and \$1.00. Remember you can obtain Rexall Remedies only at our store—The Rexall Store.—Johnson's Pharmacy
